Dinosaur Lady Linda Skeers, 2020-07-07 A beautifully illustrated picture book biography of Mary Anning that will enlighten children about the discovery of the dinosaurs and the importance of female scientists, perfect for fans of *The Girl Who Thought in Pictures* Mary Anning loved scouring the beach near her home in England for shells and fossils. She fearlessly climbed over crumbling cliffs and rocky peaks, searching for new specimens. One day, something caught Mary's eye. Bones. Dinosaur Bones. Mary's discoveries rocked the world of science and helped create a brand-new field of study: paleontology. But many people believed women couldn't be scientists, so Mary wasn't given the credit she deserved. Nevertheless, Mary kept looking and learning more, making discoveries that reshaped scientific beliefs about the natural world. Educational backmatter includes a timeline of Mary Anning's life and lots of fantastic fossil facts! The perfect choice for parents and teachers looking for: Dinosaur books for kids 5-7 and kids books about fossils Feminist picture books about historical women, and daring books for girls Kids STEM books

Respectable Deviance and Purchasing Medicine Online Lisa Sugiura, 2018-02-13 This is a unique interdisciplinary exploration of the contemporary phenomenon of online medicine purchasing. In this research, Sugiura provides a criminological understanding of the sale of online medicines as well as the traditional illegal markets. Crucially, the practice is investigated from the perspective of web users, moving beyond the headlines and warning campaigns to contextualise the provision of medicines online, to describe this practice and subjective accounts of purchasing medicines from the Web. Drawing together established deviance theories, *Respectable Deviance and Purchasing Medicine Online* considers the construction of online medicine purchasing, the justifications presented to challenge how it is labelled, and how the behaviour is managed to show how the framing of risks and deviance is challenged online. Offering a much-needed a critical overview of the UK healthcare regulatory system, Sugiura also analyses literature, data and policy documents originating from different countries highlighting that the geographical locations of participants in web forums, online surveys and non-face-to-face interviews cannot always be verified. With broad implications for regulation and safety surrounding medicines online, this innovative and timely study contributes to current online healthcare debates and broadens our understanding of cybercrime. It will be of particular interest to scholars of cybercrime and those interested in the changing nature of deviance.

Harlem Grown Tony Hillery, 2020-08-18 "An inspiring picture book for youngsters with meaningful ties to the

environment, sustainability, and community engagement.” —Booklist “Hartland’s gouache illustrations wobble endearingly, colorfully capturing the children’s triumph, and the kinetic energy and colorful vibrancy of the city neighborhood.”

—Publishers Weekly Discover the incredible true story of Harlem Grown, a lush garden in New York City that grew out of an abandoned lot and now feeds a neighborhood. Once In a big city called New York In a bustling neighborhood There was an empty lot. Nevaeh called it the haunted garden. Harlem Grown tells the inspiring true story of how one man made a big difference in a neighborhood. After seeing how restless they were and their lack of healthy food options, Tony Hillery invited students from an underfunded school to turn a vacant lot into a beautiful and functional farm. By getting their hands dirty, these kids turned an abandoned space into something beautiful and useful while learning about healthy, sustainable eating and collaboration. Five years later, the kids and their parents, with the support of the Harlem Grown staff, grow thousands of pounds of fruits and vegetables a year. All of it is given to the kids and their families. The incredible story is vividly brought to life with Jessie Hartland’s “charmingly busy art” (Booklist) that readers will pore over in search of new details as they revisit this poignant and uplifting tale over and over again. Harlem Grown is an independent, not-for-profit organization. The author’s share of the proceeds from the sale of this book go directly to Harlem Grown.

Swoope Almanac Robert Whitescarver, 2019-04-13 Robert Whitescarver and his wife Jeanne live on a cattle farm in Swoope, Va. in the Shenandoah Valley. Whitescarver’s stories and journal entries tell tales of combining good farming and good conservation practices on a life journey that has produced a healthier ecosystem and a cleaner Chesapeake Bay. You will laugh and cry as you travel into a world of wide open spaces, shrikes, calf cookers, riparian buffers, and cow pies.

Michigan’s Haunted Lighthouses Dianna Stampfler, 2019-08-26 Travel Michigan’s coast—and into the state’s history—with otherworldly tales of the spirits of those who sought to keep its waters safe. Michigan has more lighthouses than any other state, with more than 120 dotting its expansive Great Lakes shoreline. Many of these lighthouses lay claim to haunted happenings. Former keepers like the cigar-smoking Captain Townshend at Seul Choix Point and prankster John Herman at Waugoshance Shoal near Mackinaw City maintain their watch long after death ended their duties. At White River Light Station in Whitehall, Sarah Robinson still keeps a clean and tidy house, and a mysterious young girl at the Marquette Harbor Lighthouse seeks out other children and female companions. Countless spirits remain between Whitefish Point and Point Iroquois in an area well known for its many tragic shipwrecks. Join author and Promote Michigan founder Dianna Stampfler as she recounts the tales from Michigan’s ghostly beacons. “Haunting tales of Michigan’s lighthouses . . . Her stories come from lighthouse museums, friends and family.”—Great Lakes Echo

Rare Treasure Don Brown, 2003-06-16 Before the word dinosaur was even invented, an English girl discovered a remarkable skeleton on the rocky beach at Lyme Regis. Thus began a lifelong passion for the woman who became one of the first commercial fossil collectors. Mary Anning (1799–1847) spent her lifetime teaching herself about fossils and combing the

rugged shore for ancient treasures. Her collection thrilled the public, excited the scientific community, and proved that a woman could overcome danger and social limitations to accomplish great things.

Museum of Chance Dayanita Singh, 2014 Museum of Chance is the first publication of Museum Bhavan, which is a collection of museums made by Dayanita Singh in New Delhi. The museums house old and new images made by the artist. Each wooden structure can be placed and opened in different ways, and holds around a hundred framed images, some on view, while others wait for their turn in the reserve collection, also kept inside the structures. As Singh keeps adding images to the museums, the museums themselves give birth to other museums. For example, the Museum of Embraces comes out of the Museum of Chance, and the Museum of Vitrines is contained within the Museum of Furniture. This publication is a mass produced artist book for the museum by the same name. Each image in the book is a cover image on one of the books.-- Colophon.

Beyond the University Michael S. Roth, 2014-05-28 Contentious debates over the benefits—or drawbacks—of a liberal education are as old as America itself. From Benjamin Franklin to the Internet pundits, critics of higher education have attacked its irrelevance and elitism—often calling for more vocational instruction. Thomas Jefferson, by contrast, believed that nurturing a student's capacity for lifelong learning was useful for science and commerce while also being essential for democracy. In this provocative contribution to the disputes, university president Michael S. Roth focuses on important moments and seminal thinkers in America's long-running argument over vocational vs. liberal education. Conflicting streams of thought flow through American intellectual history: W. E. B. DuBois's humanistic principles of pedagogy for newly emancipated slaves developed in opposition to Booker T. Washington's educational utilitarianism, for example. Jane Addams's emphasis on the cultivation of empathy and John Dewey's calls for education as civic engagement were rejected as impractical by those who aimed to train students for particular economic tasks. Roth explores these arguments (and more), considers the state of higher education today, and concludes with a stirring plea for the kind of education that has, since the founding of the nation, cultivated individual freedom, promulgated civic virtue, and instilled hope for the future.

The Garden of My Imaan Farhana Zia, 2016-03-01 It's hard enough to fit in without also having to decide whether to fast for Ramadan or wear the hijab. Aliya already struggles with trying to fit in, feeling confident enough to talk to the cute boy or brave enough to stand up to mean kids—the fact that she's Muslim is just another part of her life. But then Marwa, a Moroccan girl who shares Aliya's faith if not her culture, moves to town. Marwa's quiet confidence leads Aliya to wonder even more about who she is, what she believes, and where she fits in. In a series of letters to Allah she writes for a Sunday school project, Aliya explores her dreams and fears, hoping that with hard work and faith, something beautiful will grow in

the garden of imaan—the small quiet place inside where belief unfolds, one petal at a time. This award-winning novel from author and educator Farhana Zia captures the social and identity struggles of middle school with a fresh, new voice.

Thanks to Frances Perkins Deborah Hopkinson, 2020-07-07 An engaging picture book biography of Frances Perkins, the activist and first female United States cabinet member who created the Social Security program. From award-winning author Deborah Hopkinson. At 31, Frances Perkins witnessed the Triangle Waist Factory fire in 1911, one of the worst industrial disasters in United States history. The event forever changed her, and she dedicated herself to the fight for workers' rights. When she became Secretary of Labor in Franklin Delano Roosevelt's administration, she had the opportunity to make real her bold vision of a country where no one is left out and everyone is protected. Thanks to her efforts, we have the Social Security

program, a move that changed Americans' lives for generations to come. Deborah Hopkinson's energetic text and Kristy Caldwell's appealing illustrations unite to tell Perkins' fascinating story as well as introduce early concepts of financial literacy, the Social Security Act, and the New Deal. Back matter features more information about Frances Perkins, Social Security, and resources for economic education.

Dream Villa Dayanita Singh, 2010 In Dream Villa Singh explores how the night transforms what seems ordinary by day into something mysterious and unsettling. This series of colour photographs presents a landscape which exists as much in the artist's imagination as in the real world. Singh travels to many different cities never knowing where Dream Villa or its inhabitants will present themselves. It is a place where nothing is quite as it seems to be - it comes alive at night, when all is lit by artificial light and the moon is just ornamentation.

Rosie Loves Jack Mel Darbon, 2018-09-06 Shortlisted for the Branford Boase Award 2019 They can't send you away. What will we do? We need us. I stop your angry, Jack. And you make me strong. You make me Rosie. Rosie loves Jack. Jack loves Rosie. So when they're separated, Rosie will do anything to find the boy who makes the sun shine in her head. Even run away from home. Even struggle across London and travel to Brighton, though the trains are cancelled and the snow is falling. Even though people might think a girl like Rosie could never survive on her own. See the world through new eyes in this one-in-a-million story.

I Too Am America Shawn Dove, Nick Chiles, 2021-09-08 There is no cavalry coming! We are the iconic leaders we have been waiting for; curators of the change we're seeking to see. America is currently rumbling with a reckoning on race and wonder whether it will finally reconcile its history of systemic oppression of its Black citizens, who have helped build this country. The 2020 murders of George Floyd, Breonna Taylor and Ahmaud Arbery, in the midst of a global pandemic ignited a wave of racial justice protests and activism analogous to how the murder of Emmett Till in August 1954 sparked the Civil Rights Movement 65 years ago. We are facing the fierce urgency of empathy and the overdue dismantling of long-standing barriers that prevent Black people from realizing their full potential in America. Research from the Opportunity Agenda reveals that stories of our lived experiences, more so than data and numbers, is what evokes the empathy that changes hearts and minds that might push us further toward a more perfect union. *I Too Am America: On Loving and Leading Black Men and Boys*, written by Shawn Dove and Nick Chiles, delivers timely insights and inspiration that humanizes the stories of Black men and boys, while offering strategic recommendations on how together we can from our current rumblings with a racial reckoning to loving, learning and leading with and on behalf of Black men and boys.

Emotional Justice Esther Armah, 2022-10-11 It is time for an emotional reckoning on our path to racial healing, sustainable equity, and the future of DEI. Here's the tool to help us navigate it. In this groundbreaking book, Esther Armah argues that the crucial missing piece to racial healing and sustainable equity is emotional justice—a new racial healing

language to help us do our emotional work. This work is part of the emotional reckoning we must navigate if racial healing is to be more than a dream. We all-white, Black, Brown-have our emotional work that we need to do. But that work is not the same for all of us. This emotional work means unlearning the language of whiteness, a narrative that centers white people, particularly white men, no matter the deadly cost and consequence to all women and to global Black and Brown people. That's why a new racial healing language is crucial. Emotional Justice grapples with how a legacy of untreated trauma from oppressive systems has created and sustained dual deadly fictions: white superiority and Black inferiority that shape-and wound-all of us. These systems must be dismantled to build a future that serves justice to everyone, not just some of us. We are the dismantlers we have been waiting for, and emotional justice is the game changer for a just future that benefits all of us.

A Finer Future L. Hunter Lovins, Stewart Wallis, Anders Wijkman, John Fullerton, 2018-10-09 The blueprint for an inspiring regenerative economy that avoids collapse and works for people and the planet. Humanity is in a race with catastrophe. Is the future one of global warming, 65 million migrants fleeing failed states, soaring inequality, and grid-locked politics? Or one of empowered entrepreneurs and innovators building a world that works for everyone? While the specter of collapse looms large, *A Finer Future* demonstrates that humanity has a chance - just - to thread the needle of sustainability and build a regenerative economy through a powerful combination of enlightened entrepreneurialism, technology, and innovative policy. The authors - world leaders in business, economics, and sustainability - gather the evidence, outline the principles of a regenerative economy, and detail a policy roadmap to achieving it, including: Transforming finance and corporations Reimagining energy, agriculture, and the nature of how we work Enhancing human well-being Delivering a world that respects ecosystems and human community. Charting the course to a regenerative economy is the most important work facing humanity and *A Finer Future* provides the essential blueprint for business leaders, entrepreneurs, environmentalists, politicians, policymakers, and others working to create a world that works for people and the planet.

Positive Organizational Scholarship Kim Cameron, Jane Dutton, 2003-08-09 Scholarship establishes a new field of study in the organizational sciences. Just as positive psychology focuses on exploring optimal individual psychological states rather than pathological ones, *Positive Organizational Scholarship* focuses attention on optimal organizational states --- the dynamics in organizations that lead to the development of human strength, foster resiliency in employees, make healing, restoration, and reconciliation possible, and cultivate extraordinary individual and organizational performance. While the concept of positive organizational scholarship encompasses the examination of typical and even dysfunctional patterns of behavior, it emphasizes positive deviance from expected patterns. *Positive Organizational Scholarship* examines the enablers, motivations, and effects associated with remarkably positive phenomena --- how they are facilitated, why they work, how they

can be identified, and how researchers and managers can capitalize on them. The contributors do not adopt one particular theory or framework but draw from the full spectrum of organizational theories to understand, explain, and predict the occurrence, causes, and consequences of positivity. Positive Organizational Scholarship rigorously seeks to understand what represents the best of the human condition based on scholarly research and theory. This book invites organizational scholars to build upon and extend the positive organizational phenomena being examined. It provides the definitional, theoretical, and empirical foundations for what will become a cumulative body of enduring work.
